lumi pendant

Halogen 12 Volt
G4 Lamp (35w max.)

LED (Driver Required)
G4 Lamp (3.2w max.)

All dimensions are in millimetres

The Lumi pendant is a great extension of the already successful Sfär, offering beautifully soft side illumination. With the same spherical shape as the Sfär, the Lumi's lamp shade is made from solid clear glass. Weighing about 2kgs, the shade is finished in a smooth, high polish exterior with frosted interior. This light is great to highlight features and to clustered together.
