Installation

- 1 Be extremely careful when handling the wall light shade as materials are delicate and can scuff easily. Please leave protective plastic cover on shade while preparing for installation.
- 2 Using a qualified electrical contractor, connect electronic driver or transformer to mains power, connect electrical cable from fixture to driver using the terminal block connected to the wall canopy and heat shrink. Place driver in the wall cavity. Install wall canopy back plate to wall with appropriate screws. Trim suspension cable to approximate length, allowing additional length for final adjustment. Slide suspension cable through cable adjuster, located on ceiling canopy cover.
- 3 Slide front plate of canopy up the flex to meet the back plate and fix with screw connectors.
