

## Mr Shot™ Collection

The Mr Shot™ lights are statement pendants full of punch. With a large cylindrical metal spun lampshade which can be angled, these pendant lights are available in a nature inspired palette of muted green, grey and white powder coat colours. A plywood timber bracket and detailed black wing nuts complete the design.

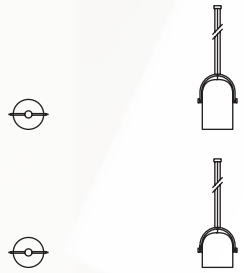

Two versions are available, the original Mr Big Shot™ and its new smaller brother, Mr Short Shot™.

The Mr Shot™ lights can be finished in custom colours. Please speak with us to see what options are available.
